

# Legility and RelativityOne

## Your Complete Platform for eDiscovery

**When you juggle data between multiple systems, the eDiscovery process can become overly complicated and inefficient. Streamline your eDiscovery process with Legility and RelativityOne.**

### A trusted partner

Legility is one of the largest global providers of RelativityOne, and the go-to partner for clients looking to make a move to the cloud leveraging the secure RelativityOne platform. We support Relativity's full suite of solutions across our global footprint for both eDiscovery managed services and transactional discovery projects. As one of the largest and longest-tenured global providers of both Relativity Server and RelativityOne, Legility's eDiscovery experts have been delivering excellence using Relativity technology since 2009.

### More than a decade of Relativity experience

Since 2009, Legility has had great success in helping our clients fully optimize their use of the secure and scalable Relativity platform. Our deep expertise has resulted in countless customer successes, and constant innovation with custom applications across Legility's Relativity Suite.

### A Global Presence

Our clients are looking for a company of scale that leads the way in increasing value in the delivery of technology and services. Our deep expertise with the Relativity platform allows us to shape highly customized yet substantially scalable and robust solutions.

### RelativityOne

RelativityOne is the cloud-based offering of leading eDiscovery software platform, Relativity. A bespoke SaaS delivery, RelativityOne provides the benefits of hosting data in the cloud including security, cost, and scalability.

Relativity is a feature-rich, web-based eDiscovery platform for the review and management of electronically stored information (ESI) and paper-based data.

As the market continues to embrace cloud solutions, RelativityOne represents a market-proven platform that we utilize to skillfully guide clients on that journey.

### RelativityOne: A Secure Cloud Platform that Gives you The tools you need to tackle your unique challenges through every phase of a project

- **Secure eDiscovery:** Your data is safe with us. RelativityOne is designed to be the most trusted and reliable eDiscovery solution your organization will ever use.
- **Investigative Approach:** Use advanced analytics, machine learning, and visualizations to quickly sift through volumes of unstructured data and uncover the facts.
- **People-Centric Review:** Get a better understanding of the people and relationships in your matter with intuitive ways to analyze communications across people and channels.
- **Comprehensive Platform:** Gain access to all the tools you need at each step of the eDiscovery process to ensure you can tackle even the most complicated cases. No risky data transfers required.
- **Flexible Data Management:** Take full control of your data—from managing a repository for early case assessment or investigations to putting inactive matters into cold storage.
- **Collect from Popular Cloud Technologies:** Collect directly from the most popular enterprise technologies without ever leaving the cloud—so your data remains as secure as possible.
- **Cloud Elasticity:** Keep up with performance during peak times, without the work or expense of buying, installing, and maintaining your own infrastructure.
- **Consistent Global Delivery:** Deliver a consistent experience to your customers anywhere in the world and easily scale your services and solutions.
- **Flexible and Extensible:** Create applications and automate workflows to meet different requirements of each case.

### Relativity provides:

Complete processing capabilities, computer assisted review, image and native file review.

Powerful searching, diverse coding options, flexible workflow capabilities.

Integrated productions, Unicode and foreign language support and text analytics.

### Custom, native Relativity enhancements:

**Envize™:** Legility's best-in-class machine-learning tool, Envize, speeds document review using AI, to drive millions of dollars of savings into large document review projects. And best of all, it integrates with RelativityOne.

**Spotlight:** Get full visibility into all of your key metrics for your litigation portfolio, including data spend, ROI, and reviewer statistics. Spotlight enables you to see exactly what's going on with all the matters you manage so you can get the work done on time, within budget, and right – the first time, every time.

Let's change the business of legal together.
